

2)

A terminal window titled 'unix — centos@ip-172-26-6-252:~ — ssh -i LightsailDefaultKey-us-east-...' displays an SSH session. The user 'alvinfuentes@AMacBook-Pro Unix' connects to 'centos@54.87.213.214'. The terminal shows the prompt 'Activate the web console with: systemctl enable --now cockpit.socket', login details for 'Thu Nov 3 19:22:45 2022', and a directory listing of files like '747art', 'Alex', 'anaelle', etc. A 'Broken pipe' error occurs when running 'client_loop'. The session is re-established, showing login details for 'Thu Nov 3 19:24:18 2022' and the current directory as '/home/centos'.

```
unix — centos@ip-172-26-6-252:~ — ssh -i LightsailDefaultKey-us-east-...
LightsailDefaultKey-us-east-1.pem
[alvinfuentes@AMacBook-Pro Unix % ssh -i LightsailDefaultKey-us-east-1.pem centos]
@54.87.213.214
Activate the web console with: systemctl enable --now cockpit.socket

Last login: Thu Nov  3 19:22:45 2022 from 147.73.20.122
